

Sprint 1 Report - Restaurant Ordering System

Team Name: ROS

Andrew Song, Product Owner

Jeff Zhang, Scrum Master

Ipsita Bisht, Developer

Rixin Li, Developer

Charith Velaga, Developer

Eunbeen Hong, Developer

Sprint 1: 10/11/2023 - 10/24/2023

Sprint 1 Report: 11/03/2023

Actions to stop doing:

- The team should stop doing scrum meetings over 15 minutes in order to make the meeting more focused on necessary topics.
- The team should stop showing up late for meetings as it will waste other members' time.

Actions to start doing:

- More work sessions or meetings to update on progress since this can help with understanding the workload per user story and understand where we are at in terms of sprint progress
- The team should frequently update Jira scrum board in order to make it easy to track progress of the task status

Actions to keep doing:

- Keep updating on discord since that helps with communication and understanding how well the sprint is going
- Keep updating the design of current codes to make latter work easier such as middle-ware component

Work completed/not completed:

Work completed:

- Add, edit, and delete menu item
- View menu item
- Add/remove menu item from the shopping cart
- Connected database

Work not completed:

Work completion rate:

- All user stories are completed in sprint 1 (4/4).
- $\frac{2}{3}$ user stories were completed per day (2-3 hours per day).
